AVANTGARDE

INTERN

Issue No. 2

Dear members,

welcome to "Avantgarde Intern #2"!

As you might have noticed (or are about to notice right now), the look of this small magazine has changed a lot. I (Jack Daniels) will from now on write and type this mag, as Deff has already enough to do within the group. Moreover editing the mag with a PC is far easier than doing it manually! But still, Deff will do the picture-pages where you can discover some more or less known AVT-faces.

So, if you have any kind of article, picture or whatever just mail it to me, instead of Deff. You will find the address on one of the next pages!

This issue will contain an AVT mail sheet and as far as I know, you got my stickers already. Hope you enjoy and use them.

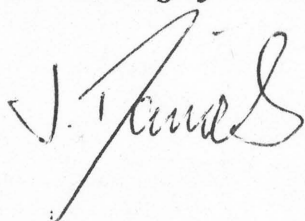

Although I doubt it's necessary to mention, but still this mag isn't meant to be spread.

But let's get over to the latest happenings in Avantgarde.

SKINHEAD and SKID ROW of Alpha Flight joined us, but left again after quite a short period in order to rejoin their former group. ELIMINATOR from the States joined our fleet as well! As mentioned in the previous issue, a friend of Jack Alien joined under the handle SUICIDE. He will code and fix for the group, as the NTSC computer for him arrived in the meanwhile! Welcome on board, dudes! Nastiness INC. left the group. Dream Park is back online, running as Avantgarde & F4CG & Propaganda HQ. The new number is 619-788-6615. A 1-800 number is also available for the Americans, installed by Eliminator.

We will send out some little interview forms for this mag along with the mag, please fill them in and send them back to me, thanks.

That's it for this issue, enjoy the mag!

WANTED!

Jack Daniels (that's me... ahem) is looking for any old wares from his former groups Cocaine, Orion, ATG and Paramount, except for the old issues of Corruption. So, if you have anything from these mentioned groups, please make sure to send it to him (me).

Deff is searching any old Papillions demo. He has got "We're the champions/TPI", but is looking for the rest of their legal releases.

Skywolf can make copies of films in all systems : Pal, N-Pal, Secam, Mesecam, NTSC (all!). He can convert to which format you want (e.g. from Pal to NTSC). High quality copy in HiFi Stereo guaranteed. So if you need something like this, feel free to contact Lionel, he will help you (for free of course!).

If you want to leave Jack Daniels a mail or anything on internet, just do it at: JackDaniels@Legobbs.Wupper.De

If you are looking for something, want to sell/buy some stuff or want to trade something, just leave me a message and I will print your advert in the next issue.
