## EDITORIAL

Finally I got myself together, and sat down and wrote. This is the first issue of the papermag IMAGINATION, this papermag was called EVERGREEN before, but then I joined IMAGE and decided to name the papermag IMAGINATION, and when I joined UNICISS I decided to keep that name. Well, if you expect alot of this first issue, you might get disappointed, bcoz we were in need of more party pictures, we had more but they really weren't very good. Enough about that, a big thanks must go to CREPT/FLASH INC. for painting that awesome frontpage (thanks my friend, I think I'll try to call you one of the next days, ok !). I guess you have already lost interest in this editorial, so now I'll end this by saying: We want reactions on this papermag, negative aswell as positive!!

## LIGHT PARTY'92

At first the party was supposed to be held on a school, but due to some problems, it was moved to an ICEHOCKEY hall, so as you can figure out, it was god damn cold, but after a while it got warmer. The party was really great, there were many C64 freaks, and almost no AMIGA lamers. There were also some really cool contributions for the competitions, just too bad that they didn't show all the contributions, they only showed the 10 best in LIGHT's opinion. There were 24 contributions to the demo compo on C64, and that's quite alot. The food was too expensive but all in all the party was very good arranged, the demos were commented by a guy from HORIZON. These groups were present....:

FHI, CREST, OXYRON, ORIGO, BEYOND FORCE, ANTIC, HYSTERIC, CHROMANCE, PRINCES, BLAZE, CONIC, TOPAZ BEERLINE, VISION, FLT, MANIAX, TRIAD, BRUTAL, LEGEND, X-FACTOR, DUNEX, STARION, DOMINATORS, TALENT, ORBS, WRATH DESIGNS, EXTEND, FACES, PRETZEL LOGIC, DEATHSECTOR + maybe more or less...

The deadline of the demo compo was pushed a few hours, the demo compo ended like this..:

1. ORIGO
2. Beyond Force
3. Antic
4. Oxyron
5. Fairlight

The Graphix compo was sadly won by a DIGITIZED picture, it really sux that people can win on such a picture, ofcoz the picture was quite nice, but other people should also have a fair chance, coz they probably used loads of time finishing their picture!

Well, enough about this, done is done, and we can't do anything about it.

Well, just some cool things about the party...:

Really kicking demos, many C64's, Cool arrangement, nearly no AMIGAs....

Some negative things about the party...:

Too expensive food, nearly no busses, too cold, always showing LIGHT demos on the big screen...

# PHOTOS

This picture is of a VERY tired Ray/UNICESS. I guess when you look at this picture you won't get a clue of how he looks, or!?

An old picture of Ferro/VISION, he has one of his freak outs!

## WE NEED...

More votesheet spreaders, paper gfx artists, pictures, and much more, if you can fulfill any of these wishes then send to DISHY or me, ZAK, and we can send you a votesheet to spread or whatever it is you want!!

We hope to get some 'volunteers' within a short amount of time! We can use any kind of pictures, as long the pictures are with scene dudes! Please, do not send copies, you will get your pictures back as soon as we have used them! Just remember to write who's on the picture, and who they belong to! That's it ... We're waiting on a letter from you!!

## LAST WORDS...

Well, this ends the first issue of this delayed papermag. We hope you have liked it as much as we liked making it, ofcoz we have had our troubles, but I think that we solved them quite nice. Well, I guess I haven't got much more to say, but here at the edge of the end, I would like to say thanks to the people who contributed to this mag, and that helped making it possible! Just remember to vote, there will be a new votesheet in the scene at this moment, so be sure to grab it! Ok, I guess I have to end now....
